AMERICA'S PLAYHOUSE

> Madison Square Garden, the New York playhouse for all sporting events, is for sale, the owners holding the property. which occupies a city block, at \$3,250,000. It is the largest and most widely known building in the United States devoted ex-

building in the United States devoted exclusively to public entertainments. The property cost \$3,000.000 at the time of its construction in 1889, since which time it has paid an dividends to the investors. No report of samings has ever been made, but it is thought that the owners have assessed themselves annually to meet current expenses.

The Garden is best known to the cyclist enthusiast, being the home of former bicycle shows, and for the past fourteen years has held the yearly elx-days' race, with frequent bicycle sprint meets during the summer months. It has also housed the round of horse, dog and poultry shows; electrical, food, tobacco and automobile shows. MARATHON RUNNERS TO MEET IN OGDEN

There appears to be a great deal of interest in the scheduled match race between Dorando of Italy and Hayes of New York. Dorando finished first in the Olympic Marathen race last summer in Lendon, with the assistance of the officials while Hayes came in unassisted and was officially declared the winner after a protest had been filed.

Dorando is confident that he can defeat Hayes and has come all the way from Italy to demonstrate to the world that he is the better man. Hayes is in the pink of condition and expects to run faster than he did in London, which ought to give him the trace.

The race will be run on Thanksgiving eve at Madison Square Garden, each contestant having posted \$1000 as a guarantee of good faith.

M'FARLAND WILL TAKE TRIP AROUND WORLD

Packie McFarland does not like to see all those good old British sovereigns going to waste and has made preparations to take the next boat from New York to London. Packle says that there is no use staying in this country trying to secure a match with "Battling Nelson, as the latter is stage struck, and appears to have gone out of the lightling game. McFarland intends to take a trip around the world before returning to the country and is confident that he will defeat everybody that is matched against him in the lightweight division.

It is confidently believed that if Driscoll can make the weight he will be able to defeat Abe Attell if they ever meet. Papke Is Light.

A great deal of interest centers in the training camps of Billy Papke and Stanley Ketchel in San Francisco. The former is trying to build up his weight in order to get to the middleweight limit, and his work is being watched with interest by fight fan experts. Ketchel, on the other hand, has about twenty pounds to take off before he can reach the middleweight mark, and he will have to put in many a good lick to come to the weight required by the articles of agreement.

The high school new holds the state championship, and a desperate effort will be made to land the northwestern championship. The Spokane team will outwelgh the high school team at least fifteen pounds to the man, but Callahan is working for speed to overcome this great disadvantage in weight. For the past week there has not been any scrimmage work, but this afternoon the team will line up against a picked bunch from the class teams.

Manager Stout has been working hard to complete arrangements for the trip. The team will be fitted out first class, and there will not be anything left undone that will aid the boys in defeat-

"We learned a number of interesting facts during our visit to Europe last summer and have done much work in this country." he said. "but it will necessarily be some time before we shall be in a position to make any definite suggestions for the modification of the monetary system of the United States. It is a big subject and will require careful attention. It is possible that we may expect to have some changes made in the law regulating the inspection of banks, but if that is done it will be merely incidental."

The senator's return has revived the suggestion so frequently heard immediately after Senator Allison's death, that he (Mr. Hale) will succeed Mr. Allison as chairman of the senate committee on appropriations, but he was evidently not inclined to look with favor upon it. He would only say that there would be plenty of time to settle that question after congress meets three weeks hence.
